University Laboratory High School

Summer Enrichment Program for Next Year's 5th and 6th Graders

University Laboratory High School, "Uni," is a public high school committed to excellence and innovation in education. Unlike most public high schools, Uni has a competitive admissions process and invites all academically talented students to apply for admission. Uni provides a balanced educational program that enhances the intellectual, creative, social, and physical development of academically talented and motivated students.

The Uni Summer Enrichment Program is intended to provide learning opportunities for students from groups historically under-represented in programs for academically talented students. To be eligible for the camp, students must be entering 5th or 6th grade in the fall. This summer, the program will include the following components.

Explore the World and Define Yourself

June 22 – 26, 9:00 a.m. – 12:00 noon

Cost: \$25.00

Travel the world and learn some of the thousands of forms of communication used by people of different cultures past and present. Learn to "read" cloth, stone, beads, knots, shields, and create your own versions of these pieces of personal art. As you make cultural connections of your own, enjoy the connections others make. Create one fabulous final project that includes something of everyone!

Mathematics and Robots

June 29 – July 3 and July 6 – 10, 9:00 a.m. – 12:00 noon

\$50.00

Cost:

Build and program robots in this engaging two-week session! Work with Lego Mindstorm kits and laptops to discover the possibilities and limits of robots. Visit with top labs and scientists on the University of Illinois campus who work with and on robots everyday through mini-field trips. Explore mathematical concepts that underlie the science of robots and computer programming. Expand your understanding and having fun--a winning combination!

Using the Arts to See the World

July 13 – 17, 9:00 a.m. – 12:00 noon

Cost: \$25.00

Join us this summer as we explore a unique opportunity to stimulate thinking and help young people develop the skills, drive, and passion to be excellent. This summer camp session involves an exploration of movement and visual and language arts in a brief but challenging program sure to excite and ignite artistic young minds!

All students interested in participating in the Uni High Summer Enrichment Program should complete the attached registration form and return the form, along with the appropriate payment*, to:

University Laboratory High School
Attn: Summer Camp
1212 W. Springfield Ave.
Urbana, IL 61801

* Fee waivers are available for qualifying students. If interested in a fee waiver, contact Steve Epperson, Interim Director of Uni High.
