

# 2009-2010 MAKINO FOUNDATION AWARD for *Expanding Student Activities* History and Application Form

The Makino Foundation Award for Expanding Student Activities was established in 1997 by Shigeki Makino, a 1983 graduate of University High School, to recognize and assist in the enrichment and expansion of activities available to students at University High School. It is the hope of the Makino Foundation that the award will help the school support its diverse collection of existing student activities while at the same time providing new initiatives.

The Award for Expanding Student Activities will be given in the form of supplemental budgetary support, awarded on the basis of competitive application using the following general guidelines:

1. All faculty and counselors and coaches are eligible to apply for one award each year. Precedence will be given to those who did not receive a Makino award for the 2009-2010 school year.
2. Applications are to be made for special programs or projects that reflect the interests of the student body. These special programs or projects should fall under the umbrella of one of the following: (a) Enhancement of a current student activity that will significantly improve it in breadth, quality, or will support it in a larger endeavor, or (b) The foundation or establishment of a new student activity.
3. Award monies can be spent at the discretion of the recipient(s) for program materials, activity costs, speakers, or travel expenses. No money will be given directly to the award recipient in the form of salary or wages.

Awards recommendations to the Curriculum Committee will be made by a review panel composed of members of the Student Faculty Advisory Committee and outside subject experts as needed. Members of the Committee for this year are: Joel Beesley, Jenny Cooke, Laura Dripps, Christina Harden, Edo Roth, Karolina Kalbarczyk, Sue Kovacs, Craig Russell and Billy Vaughn. Committee members may apply during the year they serve, but they must be excluded from discussions and votes pertaining to their proposals. *Applications from current awardees will be placed at the bottom of the applicant pool to be considered. After award monies have been expended, awardees will be asked to report progress on their projects based on the timeline submitted with their application. If an awardee leaves Uni for the year of the award, that award will be reallocated.* A final progress report will be due by the last day of classes for the year for which the award was made.

For 2009-2010, \$1,500 is available for these awards. ***Applications for the 2009-2010 awards are due to SFAC (Sue Kovacs) by April 1, 2009.***
