

University Laboratory High School Laptop Program Frequently

Asked Questions

- **Who can bring their personally owned laptops to school?**

All sub-freshman (subbies) must lease a laptop through Uni High for an annual fee. Freshman through Senior have the option to either lease a laptop through Uni High for an annual fee or to bring a personally-owned laptop that meets the specifications set by the school on the *Laptop Specifications* page of this packet.

- **Can my student bring a tablet instead of a laptop?**

No. If your student elects to bring their own laptop, it must be able to run a full-fledged operating system (Microsoft Windows & Mac OS X). Students **MAY NOT** bring tablets including iPads and Android tablets, as well as Chromebooks or computers running Linux. Microsoft Surface **PRO** tablets are an exception as they can run a full version of Microsoft Windows (attachable keyboards are highly recommended).

- **What software will Uni High provide?**

If you elect to lease a laptop through the school, all required software is included in the laptop fee.

If you elect to bring a personally-owned laptop, Uni High will not provide any software.

- **What software am I required to purchase? (personally-owned computers only)**

Students that elect to bring their own laptop are responsible for purchasing and installing any required software for their classes. Please refer to the *Required Software* page for more information.

- **Can I purchase insurance through Uni High?**

No, Uni High is not selling insurance for personally-owned laptops. Warranties can typically be purchased at the retail store or from the laptop manufacturer at the time of purchase.

Laptops leased through the school include a 3-year warranty that includes accidental damage in the laptop fee.

- **Are laptop fees eligible for fee waivers?**

Laptop fees may be waived, but there is a strict process in place. It begins with any affected family contacting uni-office@illinois.edu or 217-333-2870 for the Main Office.
